COMMUNITY RESOURCE CENTER
SUCCESS STRATEGIES FOR COLORADO NONPROFITS

OUR MISSION

Community Resource Center creates opportunities, tools and strategies to develop nonprofits and community groups to strengthen Colorado.

LETTER FROM OUR CEO

Community Resource Center believes in the power of the nonprofit sector to affect change and support thriving communities. We envision a strong and sustainable nonprofit sector leading our state towards a more just future. In order to live out this vision, we emphasize meeting organizations where they are to deliver customized, locally-specific, and authentic capacity building services. We are committed to providing essential resources in places that do not have traditional access to professional development and network building. This approach advances the

knowledge of the entire sector and strives for more equitable distribution of resources to support important and necessary work happening all over the state. The board and staff of CRC are grateful for the numerous volunteers, partners, and funders who support and advance this work to strengthen Colorado communities.
