SUCCESS STRATEGIES FOR COLORADO NONPROFITS

AmeriCorps VISTA - Rural Capacity Building Project

Community Resource Center (CRC) believes in the power of the nonprofit sector to affect change and support thriving communities. We envision a strong and sustainable nonprofit sector leading our state towards a more just future. To accomplish this, CRC catalysis a diverse network of leaders across the nonprofit sector to include social change and build the capacity of organizations to advance and achieve their missions.

Many of our programs provide access to resources for nonprofit leaders in rural Colorado. More than 5,000 nonprofits operate within the eight regions and 52-counties considered rural in our state. They play an important role in improving the quality of life in Colorado's communities and provide services to address human needs, such as food for the hungry, transitional housing and poverty alleviation.

To build the capacity of rural nonprofits to better address the key factors that influence poverty in our communities, we are providing up to 18 AmeriCorps VISTA members to our nonprofit partners working in rural communities.

The objectives of the Rural Capacity Building Project include:

- Nonprofits and community groups in rural Colorado grow in organizational capacity and gain additional resources to accomplish their missions.
- VISTA members have a positive experience during which they increase in ability and gain valuable insight for future studies and employment.
- Persistent poverty in rural Colorado is reduced.
